

Italy: Better Regulation to Strengthen Market Dynamics (Paperback)

Filesize: 2.09 MB

Reviews

It is one of the best books. Better than ever, though I am quite late in starting to read this one. You won't feel monotony at any moment of the time (that's what catalogues are for regarding in the event you check with me).

(Dr. Kristin Dickens)

Organization for Economic Co-operation and Development (OECD), France, 2009. Paperback. Book Condition: New. 267 x 188 mm. Language: English Brand New Book ***** Print on Demand *****.Italy has made significant progress using regulatory reform since the first OECD review in 2001. Administrative simplification and the increasing role of competition policy, combined with devolution of state powers to regions, have helped. But there are still key challenges for regulatory policy and its implementation, including enforcement, capacity in the civil service, impact analysis for evidence-based decision making, and building a culture of consultation. The current global economic crisis is an opportunity for Italy to further clarify how the state intervenes in the economy, to improve multi-level co-ordination, and to expand competition in specific sectors. Regulatory reform is an even more important microeconomic strategy in the current climate and could stimulate productivity, if the high regulatory burdens facing the private sector can be cut. Success on the regulatory reform agenda requires broad consensus over time, in order to ensure that political commitments are translated into concrete changes through the public administration. This review presents a general picture of the overall regulatory reform frameworks in Italy, examining quality regulation, competition policy and professional services. The review also offers a special focus on multi-level governance, where key issues include local public services, commercial distribution, local transport and energy. In the same series: Brazil, Canada, China, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Japan, Korea, Mexico, Netherlands, Norway, Poland, Russia, Spain, Sweden, Switzerland, Turkey, United Kingdom and United States.
