Brand New Book ***** Print on Demand *****.Among the many books on the meaning and causes of the war in Europe this one of Professor Dewey has a unique place. His thesis may be stated in his own words: Expressions which a bewildered world has sought since the beginning of the war to explain through the influence of a Darwinian struggle for existence and the survival of the fittest, or through the influence of a Nietzschean philosophy of power, have their roots in the classic idealistic philosophy culminating in Hegel. As the author says, however, it is somewhat hazardous to refer the secret of German national life to a particular theory in philosophy, but he makes the adventure. In the pursuance of his aim he turns to Kant to discover the principle which has most profoundly determined the Germanic idea of Morals and the State; this he finds in Kant's conception of the relation of freedom as an absolute supersensible principle of action to the realm of nature where physical causality rules, as the sphere within which all the purposes of free moral action are meant to be realized. While for Kant the will was thus an application of reason to action, according to Fichte reason was an expression of the will, and the world of nature and of human relations an expression of reason. The idealism which Kant had claimed for the individual, Fichte carried over to the State, transforming moral individualism into an ethical socialism. With a burning enthusiasm Fichte called upon the German people to establish a kingdom of the spirit and of reason, of science, morals, aim the State; and he did this with the conviction that if the German...
