Reviews

Without doubt, this is actually the best job by any publisher. It is written in basic phrases instead of difficult to understand. You will like the way the author publishes this publication.

Columbus discovered the West Indies, as well as the islands and continent of the Atlantic Ocean, and that no one before him possessed any knowledge of the same Cabot replied: Solinus, an historical cosmographer, states that among (sicpra beyond) the Fortunate Islands, called Canaries, after navigating thirty days, 2 there are isles, named Hesperides, which he presumes to be identical with those that were found in the times of the Catholic Kings, and he has heard many people in this city of Seville say that it was Christopher Columbus, who discovered them. 3 Cabots cautious language is worthy of note, particularly when looked at in connection with another answer, is still more surprising. This was given in reply to a question addressed in 1535, that is, ten years after the explorations of Estevam Gomez and llemoriar dz la Real Amdemia dz la Hzrtorza, vol. x, p. 20l. See also the same, pp. 265 and 266-67. That Probanza is evidently identical with the one which the lVemoria. r mention at p. 201, as having been executed Dec. 31st, 1535. There are the same witnesses, and the text indicates the same rubric, viz. : Leg. 2. Pieza 7. It is impossible to imagine a more confused jumble than this publication of the Spanish Academy of History. 2 Forty days, says SoLiNUs: Ultra Gorgadas Hesperidum insulae, sicut Sebosus affirmat, dierum quadraginta navigatione in intimos maris Giovanni Verrazano, and when all the maps of...
