Crochet work, so called from the hook, French croche or croc, with which it is done, is not only one of the easiest but in comparison with the cost and labour, one of the most effective kinds of fancy-work. It is also one of the most useful, as it can be applied to the domestic requirements of every-day life, to wearing apparel, house-linen and upholstery; and we are sure that the patterns contained in this chapter, which have in addition to their other merits that of novelty, will meet with a favorable reception. Hooks, or needles, as they are generally called, made of wood, bone or tortoise-shell are used for all the heavier kinds of crochet work in thick wool or cotton, and steel ones for the finer kinds. The Tunisian crochet is done with a long straight hook, which is made all in one piece. The points should be well polished inside and not too sharp, the backs slightly curved, and the handles, whether of bone, steel or wood, so light as not to tire the hand. Those represented here, we consider the best, as regards shape. As it is most essential that the needle should be suited to the cotton in size, we subjoin a comparative table of the numbers of the D. M. C threads and cottons and of the different needles. This item ships from La Vergne, TN. Paperback.
