Brand New Book ***** Print on Demand *****.Twentieth century scientists would have succeeded in formulating a unified theory if they had strictly followed the principles of scientific reasoning: experiment, observation, and inference. In Grand Unified Theory, Arkay Nair presents a simple and elegant model of a unified theory that combines Classical Mechanics with Quantum Theories. Nair is so confident of his arguments that he is willing to award \$1000 to anyone who can find a fallacy in his arguments. His arguments include: Copernican heliocentric universe is only a mathematical model and is not a physical reality. Tycho Brahe's geoheliocentric model of the solar system is the physical reality. The Michelson-Morley experiments give conclusive proof that Earth is fixed in space with zero rotation and zero revolution. Earth was formed most likely by a supernova type of explosion of a companion star of our Sun. Green plants are capable of reversing entropy. The proposition that time is a fourth dimension is preposterous. Einstein went wrong with this approach and both his theories of relativity are unscientific. Orbital motions have zero velocity. If Newton were alive today, he would be the first person who would endorse my hypothesis that Earth is the barycenter of our present day solar system.
