*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).

Random House. 1 Cloth(s), 2013. hard. Book Condition: New. Books can take you anywhere and do, in this romp for prereaders. The spare text functions almost like titles for Sarah Massini's joyous two-page illustrations, in which dot-eyed toddlers stack and build with books, playing with them more like toys. As they grow, however, they begin to explore what's inside the book, and we see how their real worlds and book worlds overlap as they nap with sheep, swing through trees with monkeys, and creep around castles with spooks and monsters. Throughout, the books in each scene look like actual books, with titles, text, and illustrations visible, encouraging young readers' curiosity. 26.
