THE AMERICAN PRACTICE OF MEDICINE INCLUDING THE DISEASES OF WOMEN AND CHILDREN. BASED UPON THE PATHOLOGICAL INDICATIONS OF THE REMEDIES ADVISED .

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 50 pages. Original publisher: Washington, D. C. : U. S. General Accounting Office, 2001 OCLC Number: (OCoLC)55528226 Subject: Pollution prevention -- United States. Excerpt: . . . Chapter 1: Introduction we considered a number of factors to help ensure that we would obtain information on diverse pollution prevention experiences. Accordingly, we included several different industries, such as chemical manufacturing, microprocessor manufacturing, and printing firms. We also visited large, diverse firms such as the DuPont, Kodak and Intel corporations, as well as a smaller local facility (a Minnesota printing company). In making our selections, we also sought to visit firms from different states in order to identify what effect, if any, state pollution prevention policies had on the firms pollution prevention practices. During our site visits to these firms, we sought to obtain detailed information concerning their decisions whether or not to pursue pollution prevention, specific process or input changes implemented, the environmental results of pollution prevention measures taken, and the cost impacts associated with these measures. We supplemented these visits by following up with other companies whose pollution prevention practices had already been documented by other organizations. Dow Chemical Corporation was among the companies that had recently undertaken significant pollution prevention efforts at its La Porte, Texas and Midland, Michigan facilities. We conducted our work from June 2000 through January 2001 in accordance with generally accepted government auditing standards.
